3 **Read and write what you should and shouldn't do in your notebook.**

Are you tired?

Do you feel tired all the time? Are you always late for school because you can't wake up in the morning? Well, don't worry. There's something you can do.

First, eat right. Forget about burgers and chips and chocolate. They're yummy, but they can make you feel tired. Eat healthy food like fruit and vegetables.

You should also get some exercise. Thirty minutes of exercise a day is good for you. So, what are you waiting for? Get off that sofa and go to the park.

Also, you shouldn't watch TV late at night. Try to go to bed early, so you can get up in the morning. Have a glass of warm milk before you go to bed. People say milk helps you fall asleep.

So why don't you give it a try? It's as easy as that!
